

Manu Dangaura

Fullstack-Developer

I'm a passionate web developer with over 5 years of experience creating modern and responsive websites. I specialize in front-end development but also have strong back-end skills.

My approach combines technical expertise with creative design to deliver websites that not only function flawlessly but also provide an exceptional user experience.

TRAINING/CERTIFICATIONS

Full Stack Web Development

BG INFOTECHS / 2025

As a part of my training at BG INFOTECHS, I gained practical experience in Full Stack Web Development, working on both front-end and back-end technologies. I learned to design user-friendly interfaces using HTML, CSS, Bootstrap, and JavaScript, and developed dynamic web applications using Node.js, Express.js, and MongoDB. This training enhanced my understanding of how full web applications are built, connected, and deployed. The hands-on projects improved my skills in responsive design, RESTful APIs, and database integration, preparing me for real-world software development challenges.

PROJECTS

Portfolio website

A personal portfolio website designed to showcase my skills, projects, and achievements as a Diploma in Computer Engineering student. Built using HTML, CSS, and JavaScript, the website features a clean, responsive layout optimized for both desktop and mobile devices. It includes sections such as About Me, Skills, Projects, Education, and Contact. The site demonstrates my front-end development abilities and acts as a professional platform to present my resume and technical work to potential employers or clients.
